

LOWONGAN PEKERJAAN PT. DACREA Design and Engineering Consultants

Deskripsi Perusahaan:

PT. DACREA is a multidiscipline firm offering comprehensive services in design and engineering. Established in 1973, it has grown to become one of the leading engineering consultants in Indonesia.

Since January 2013, Nihon Suido Consultants Co., Ltd. As an experienced Japanese company which projects are spread in various countries, has joined PT. DACREA as one of the owners. This can strengthen the company's professionalism from technical, managerial and financial. PT. DACREA is a consultant which is completely independent from any trading and manufacturing firms or any suppliers and contractors.

Beside in-depth knowledge and practical know-how to achieve excellence in technical solutions, all DACREA's key personnel have been trained to approach the project with sound economic principles.

Therefore, we believe that DACREA is in the best position to provide optimum design and practical solution to each project.

However complex the project might be, our approach will be to give close personal attention to identify and solve all of our clients' particular needs in a professional manner.

DACREA has been engaged in a large number of projects throughout the country and its participation in various development projects in public and private sector is an evidence for the significant performance of the companies, which each has field specializations..
